

EA2 Dual Auger Applicator

From basic spreader to a full-blown anti-icing and de-icing system, the EA2 provides your organization the ability to select what you need to keep your roads clear and safe. A conveyor system consisting of dual counter-rotating 7" augers eliminates material carryback, reduces conveyor maintenance, breaks up frozen clumps, reduces material bridging, and offers precise material delivery to the spinner assembly.

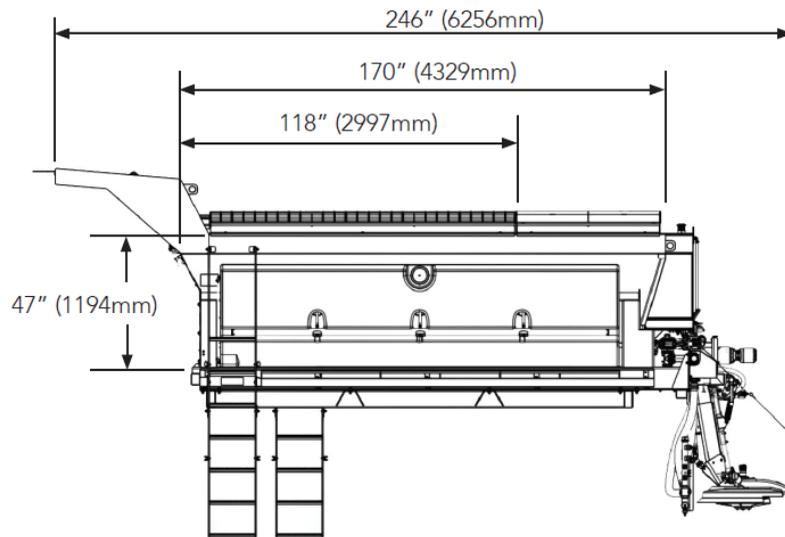

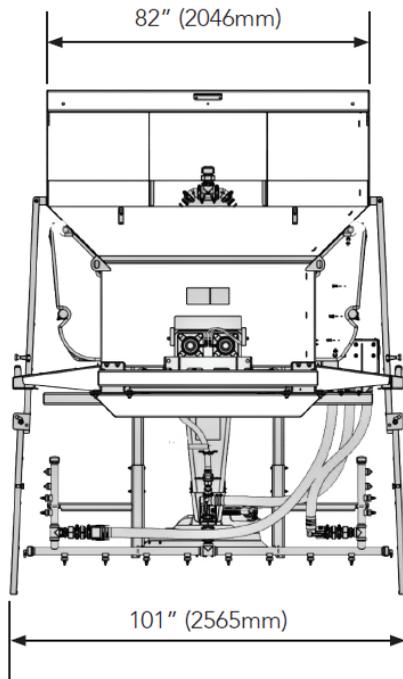

High Productivity Features

- Multiple size bodies to fit your every need
- Up to 7.5 cubic yard struck capacity
- Up to 1100-gallon liquid capacity

Optional Features

- Directional spinner
- Pre-wet (up to 70:30 mixture for slurry production)
- Anti-icing for one, two, or three lane coverage
