

NL5000 G5

Crop Nutrient Applicator

PRECISION APPLICATION

- 16-section swath width control
- ½ width spreading
- Last pass control
- Boundary spreading
- Precise independent spinner control and monitoring
- Automatic feedgate and fan frame control

SWATH WIDTH CONTROL CENTERED SHIFT RIGHT SPREAD LEFT SPREAD RIGHT

EASE OF USE

- Intuitive New Leader user interface with up to 25 stored product profiles
- System sensors to monitor spreader performance
- Feedgate optimizer with automatic adjustment

EASE OF MAINTENANCE

- Centralized grease banks
- Automatic chain tensioner
- Automatic chain oiling function and alarms
- 304 stainless steel cross tubes, mounts, and take-up brackets
- Diagnostic feedback

MULTI-PRODUCT CAPABILITIES

- MultApplier: Two product, variable rate spreading
 - Enhanced feedgate design for higher outputs
 - Stainless steel connections for easy removal
- MultiBin: Four product, variable rate spreading
 - Stainless steel connections for easy removal
 - Stainless steel top cover

NL5000 G5 Specifications

SINGLE BIN

The single bin is available in 409 painted stainless steel. A removable end gate, inverted V, and electric oiler are included.

Unit	Estimated	Struck
Length	Weight	Capacity
14 FT	1,400 LBS	298 CU FT
(4.27 M)	(635 KG)	(8.44 CU M)

MULTAPPLIERTM

The MultApplier™ allows for two separate materials to be spread simultaneously and features a 24-inch wide #4 belt-over-chain conveyor with 409 stainless steel links. The direct-driven conveyor is also controlled independently enabling the delivery of material at variable rates through the adjustable gate at the rear of the hopper body. The hillside divider improves material placement on the spinner for a more effective spread pattern.

Struck Capacity

	Bin 1	Bin 2	Total
5 FT		115 CU FT (3.25 CU M)	368 CU FT (10.41 CU M)
7 FT		161 CU FT (4.60 CU M)	356 CU FT (10.12 CU M)

MULTIBINTM

Inserting the MultiBin will convert the spreader to 4 bins, which can be used independently or together for straight and variable rate applications. Sensors are located in all bins to warn when materials are low. The MultiBin also comes equipped with an upper and lower material divider which improves material placement on the spinner for a more effective spread pattern.

Struck Capacity

Bin 1	Bin 2	Bin 3	Bin 4	Total
137 CU FT	139 CU FT	23 CU FT	21 CU FT	320 CU FT
(3.8 CU M)	(3.94 CU M)	(0.65 CU M)	(0.59 CU M)	(8.98 CU M)
