

NL450 G4

Fertilizer and Compost Spinner Spreader

The NL450 is a multi-season, multi-purpose spinner spreader that has the ability to spread a fertilizer and compost with high throughput, maximizing time in the field and the equipment investment.

Unit Length	Estimated Weight	Struck Capacity
16 FT (4.9 M)	17,600 LBS (7,984 KG)	453 CU FT (12.8 CU M)

STANDARD FEATURES

- 30.5 x 32 diamond tread flotation tires cause less compaction in the field
- 304 stainless steel bottom panel
- Polyurethane floor liner
- 304 stainless steel spinner fins
- 304 stainless steel chain shields
- Aggressive 50° side slopes and 34" bar chain conveyor to aid the product flow at any rate

OPTIONS

- 304 stainless steel or 409 painted steel
- POINT Scale System
- Tractor hydraulics or PTO hydraulics
- Hydraulic disc brakes
- #1, #2, or #3 conveyor chains
- Hydraulic or manual feedgate
- Fenders
- Anti-slab kit

G4 TECHNOLOGY

Equipped with G4 Spinner Technology that has been field proven and tested for years, you can expect a reliable, consistent spread pattern. And using variable rate technology (VRT), you can apply at different rates at each location across the field.

POINT SCALE SYSTEM

The POINT Scale System by Scale-Tec features a simple display and a powerhouse of connectivity. It is ISOBUS compatible, Bluetooth enabled and fully supported – providing the versatility you need and the reliability you can count on.

- **Self-Sufficient.** No additional hardware is needed as a remote display. View and adjust the scales in real time with your tablet or smartphone.
- **Durable.** Exceeds EP455 quality standards and engineered to withstand chemical breakdown, high pressure wash-down, and extreme temperatures.
- **Plays Well With Others.** Compatible with ISOBUS displays and all major OEM tractors.
- **Ultra Bright.** With an oversized screen and intuitive design, POINT is easy to read, even in direct sunlight.
- **Easy to Use.** Refine calibration, adjust the scale sensitivity, change the screen contrast and more – all from the mobile app.
- **Long Distance Communicator.** Using Bluetooth, remotely view and zero the scale at distances up to 1,000 feet or more.

NEW LEADER USER INTERFACE

The NL450 runs completely off New Leader software that is truly plug-and-play with an ISOBUS-ready display.

The New Leader User Interface allows us to add improvements and updates that are fully-tested, and provide the best solution to meet our customers’ needs while also providing complete support.

Automated service notifications, system monitoring, diagnostic feedback, and other features provide you with critical information you need to make adjustments so you don’t experience downtime.
