## NL600 G4

When you're expected to do it all, use a spreader that's as versatile as you are.

The NL600 is a multi-purpose, multi-season spreader that has the ability to spread a variety of materials at higher rates and faster speeds, maximizing time in the field and the equipment investment.

## WHAT IT DOES

### Benefits

- 3-in-1 Fertilizer, Compost and BioSul spreader
- High output, high capacity, multi-purpose, multi-season machine
- All the productivity benefits of New Leader's compost spreader, now with the ability to spread BioSul and fertilizer
- No time for downtime; get more done with less; engineered to do more

### Trailer Specifications

- 55,000 lbs capacity
- 30.5 x Diamond tread tires
- 4-wheel hydraulic disc brakes
- Walking beam with 6.5" shaft

### Spreader Specifications

- 21' body length
- G4 spinner design
- Plug-n-Play ISOBUS control system with switch box
- Tractor hydraulics
- Fertilizer divide
- Polyurethane floor covering a .25" thick bottom panel
- #2 chain conveyor
