WHAT IT DOES

Productivity

- Up to a 120' spread pattern
- 33% more efficient high output design
- Uniformity of spread pattern
- 16-section swath width
- Boundary and half-width spreading

Ease of Use

- Built-in spread pattern wizard
- Ability to pattern test and set the machine, using only 3 pans
- New NLM control system with intuitive user interface with minimal button presses for field operation
- Conveyor calibration is not required

Versatility

- Dual bins for two product application
- Low sensitivity to driving centers
- Variable rate width spreading from 120', 90', 80' and 70'

Ease of Maintenance

- Zero grease points
- New positive drive belt requiring minimal maintenance
- Tool-free components
- Easy to replace Stainless Steel fin overlays

AGCO

With dual bins and stacked conveyors, the NL7 spreader represents a shift in the agriculture industry.

Combining unprecedented design with ease-of-use, the NL7 can help you achieve unrivaled productivity. Crop damage, unnecessary passes, overlap, and soil compaction will become a thing of the past for you and your business.
